Home Lumber and Fuel Co.

No Let-Up in Quality

THE one factor which is guarded carefully and never allowed to vary is the quality of products manufactured by the Standard Oil Company (Indiana).

The price may go up or down as the markets of the world may dictate, the quantity of products may vary as the demand for them varies, but the quality which has been established by specifications determined with scientific exactness, remains fixed.

Only an organization financially secure, physically well-equipped and directed by men mentally alert, could maintain the high standard of quality which has been the crowning achievement of the Standard Oil Company (Indiana).

The Standard Oil Company (Indiana) is an organization of 25,000 experienced, capable men and women who are carrying out with enthusiasm the plans and policies formulated by 7 trained directors.

These plans and policies are designed to furnish maximum service to the public, regular profitable employment to the personnel and protection to the more than \$200,000,000 which the stockholders have invested in the business.

In furnishing service to the public no single factor is so important as the insistence upon a uniform high quality of every gallon of product manufactured, an insistence which is felt in the most remote corner of the organization and of the 11 states served by the Company.

Take, as an example, Red Crown gasoline. This is but one of fifteen kinds of gasoline manufactured and sold by this organization. Each is made to meet certain uses for which gasoline is needed. Red Crown is made for use in the modern internal combustion engine and for this purpose it has no superior. Red Crown is the last word in a gasoline for power purposes. That this is generally recognized is attested by the fact that last year 725,000,000 gallons were sold and used by the people of the Middle West.

This tremendous volume is the inevitable result of uniformity, high quality and reasonable price. It is but one phase of the business but it serves to symbolize the earnest, honest endeavor which every individual connected with the organization is putting forth to enable the Standard Oil Company (Indiana) to furnish the public a highly essential service.
